About Soleil à pointes by Line Vautrin

“Soleil à pointes” Mirror, Model No. 2 by Line Vautrin (1913–1997) France, circa 1960 Circular mirror in white Talosel, composed of 34 pointed rays forming a radiating sunburst. The structure is inlaid with light blue mirrored glass, arranged around a convex central mirror. A twisted Talosel border frames the central section. The particularly elegant combination of white Talosel and shades of blue gives this version a distinctive luminosity and freshness, while emphasizing the sculptural relief of the design.

You should know

This size is documented by Line Vautrin as “No. 2” | Signed “LINE VAUTRIN” in capital letters on the reverse | Very good original condition
